Description

The Tiger 6100 Intercom System is a heavy duty commercial Marine Waterproof intercom/radio system suited for daily work boat use. This includes military, law enforcement, homeland security and fire/rescue applications. The 6100 system is modular and enables the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-61502 Cable Junction Box is made of marine grade heavy duty components, RF shielded, rugged, waterproof, corrosion proof and easy to install with a plug and play design to provide many years of trouble free use.

A wide variety of system cables of chosen length may be plugged into the Cable Junction Box. These cables include headset/helmet panel jack of line jack cables, extension cables, Bluetooth wireless transceiver cables and radio PTT cables. The Junction Box main cable plugs into the T-6109 Master Control Station with a 5' cable.
