Description

The Tiger 6100 Intercom System is a heavy duty commercial Marine Waterproof intercom/radio system suited for daily work boat use. This includes military, law enforcement, homeland security and fire/rescue applications. The 6100 system is modular and enables the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-61505 3 radio switch Junction Box is made of marine grade heavy duty components, RF shielded, rugged, waterproof, corrosion proof and easy to install with a plug and play design to provide many years of trouble free use.

A variety of radio cables of chosen length for many models of radios may be plugged into the 3 radio cable Junction Box. The 3 radio switch cable and radio to ICS cable are also available in a variety of lengths.
