Description

The Tiger 6100 Intercom System is a heavy duty commercial Marine Waterproof intercom/radio system suited for daily work boat use. This includes military, law enforcement, homeland security and fire/rescue applications. The 6100 system is modular and enables the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-61508-4S-3R Cable Junction Box is designed for use with T-61522, T-61524, T-61528, T-61540 crew stations and T-61706AM Belt Station. This junction box is made of marine grade heavy duty components, RF shielded, rugged, waterproof, corrosion proof and easy to install with a plug and play design to provide many years of trouble free use.

A wide variety of system cables of chosen length may be plugged into the Cable Junction Box. These cables include crew station extension cables, radio extension cables and 12-28 volt power cables. The Junction Box main cable plugs into the T-61537-4 4statio, 3 radio master control station.
