Description

The Tiger 6100 Intercom System is a heavy duty commercial Marine Waterproof intercom/radio system suited for daily work boat use. This includes military, law enforcement, homeland security and fire/rescue applications. The 6100 system is modular and enables the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-61540 Crew Station is a marine grade, heavy duty waterproof, RF shielded design used with a wide variety of Tiger Performance headset and helmet configurations. The crew station incorporates the use of high quality marine grade waterproof components to provide many years of trouble free use. It is also designed to be user friendly with simple to use features.

The Crew Stations enables VOX intercom and 3 radio selection providing clear communications in high noise or normal background noise situations.
