**Description**

The Tiger 6000 & 6100 Intercom Systems are heavy duty Marine waterproof intercom/radio systems suited for daily use. This includes high performance, racing, military, law enforcement, homeland security and fire/rescue applications. These systems are modular and enable the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-61530-10SD Bluetooth Wireless over the head style single ear headset is one of several Bluetooth Wireless headsets offered by Tiger Performance configured for use with their mating transceivers and the T-6000 & 6001 Intercom systems. This single ear cup over the head style headset provides high noise cancelling in one ear while allowing the other ear to hear ambient sound and enjoy hands free wireless, voice activated and high noise cancelling communications.

These headsets also provide high comfort for long durations. Included is a flex boom microphone, an adjustable over-the head headband with comfort pad, attractive durable, rubberized coated ear cup.

The T-61530-10SD Bluetooth Wireless headset provides high quality and performance, comfort, durability and user friendly features. Also provided is a high level of hearing protection during a wide variety of high noise situations, while delivering many years of trouble free use making it a first choice for boat crew members.
