Description

The Tiger 6100 Intercom System is a heavy duty commercial Marine Waterproof intercom/radio system suited for daily work boat use. This includes military, law enforcement, homeland security and fire/rescue applications. The 6100 system is modular and enables the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-5922 is one of several marine grade salt water resistant Peltor Tactical headsets configured for use with the T-6100 Tiger marine intercom system. This OTHD tactical headset with in ear hearing via comfort ear pieces provides sound suppression at 85 dBA, stereo surround sound talk thru and adjustable sound amplification. These features enable high impact noise hearing protection while enhancing mission critical situational awareness.

These tactical headsets also provide high comfort for long durations incorporating adjustable sizing, flex boom microphone and wind muff. Attractive durable finishes include OD green, coyote brown, covert black & foliage green.. Non corrosive hardware and a comfort padded head tension band is also included.

The T-5920 Tactical headset provides high quality and performance, comfort, durability and user friendly features. Also provided is a very high level of ambient noise hearing protection during a wide variety of high noise situations, delivering years of trouble free use making it a first choice for marine police and military personal.
