**Description**

The Tiger 6100 Intercom System is a heavy duty commercial Marine Waterproof intercom/radio system suited for daily work boat use. This includes military, law enforcement, homeland security and fire/rescue applications. The 6100 system is modular and enables the use of a variety of components and accessories to create custom configurations and to operate to high performance and reliability standards.

The T-5901A-BS is one of several marine grade heavy duty waterproof headsets offered by Tiger Performance configured for use with the T-61706M Belt Stations. This single earcup over the head style headset provides high noise cancelling in one ear while allowing the other ear to hear ambient sound. Incorporated are waterproof mil spec speakers and a dynamic microphone.

These headsets also provide high comfort for long durations incorporating comfort gel ear seal, flex boom microphone and an adjustable over the head headband with comfort pad. Attractive durable ear cup finishes include black, black carbon fiber appearance or rubberized coated.

. The T-5901A-BS headset provides high quality and performance, comfort, durability and user friendly features. Also provided is a high level of hearing protection during a wide variety of high noise situations, delivering years of trouble free use making it a first choice for work boat crew members.
